

FRAMED PANEL FENCES

Since 1980, Everlasting Fence Company has been providing customers with the best products in the industry and a level of service matched by none. Through intense product research and annual training, our salesman and installation teams can help you accomplish your fencing and overall outdoor design goals. Our Framed panels use a combination of Western Red Cedar 1" x 4" lumber for the frame and Western Red Cedar Tongue & Groove 1" x 6" infill boards to achieve a beautiful look on both sides of the fence. Although this is a great option for privacy, it is also a great backdrop for that award-winning garden of yours. These panels can be adorned with several different toppers ranging from lattice to trellis or even spindle accents, to dress it up even more. Much like a picture frame, these panels are best kept square, so they do need to step to any heavy grade changes.

Wood: Western Red Cedar (WRC)

Spacing: Solid on T&G, 2 1/2" diamond Lattice, 1", 2", 4" and 6" square Trellis

Pickets: 1" x 6" Tongue & Groove (actual 3/4" x 5 1/2") and 1" x 2" for Lattice and Trellis (actual 3/4" x 1 1/2")

Frame: 1" x 4" full frame on both sides (can be modified to have 1" x 6" frame)

Heights: 36", 42", 48", 54", 60", 72" or 96"
Pool Code: 48" high and up

Posts: PT 4" x 4" (actual 3 1/2" x 3 1/2") are standard, but 5" x 5" posts are recommended or 6" x 6"

Toppers: Lattice (diagonal), Trellis (squares), Point top spindle or Flush top spindle toppers are standard and come in 12", 18" or 24" high

*Above represents standard dimensions, but all fences can be customized.
